

**Unclassified**

# **COE Production Engineering Status**

---

**1 February 2002**

**Julie Mintz  
COE Engineering Office  
(703) 882-1145  
coeengr@ncr.disa.mil**

# Unified Build

- **UB 3.0.2.5P13, JMTK 1.0.0.10P13**
  - Delivered 31 January
- **UB 3.0.2.5P14**
  - Content list still under discussion.  
Candidates include AA fixes, GCCS-M sponsored TDBM/troubleshooting changes
  - Schedule will be announced once content is defined

# Kernel Patch 4.2.0.0P7

- **Kernel Patch Segment, Developer's Toolkit and NIS+ Admin Tool**
  - **Initial beta made available on JPL community ftp site 18 January**
  - **Second beta planned for mid-February**
  - **Final delivery TBD, based on Tiger Team direction**

# Ongoing Activities

- **I&RTS 4.2**
  - Undergoing final Engineering Office review prior to community release
- **COE Developer Documentation Requirements (DDR)**
  - Will be released after developer verification
- **Windows Segmentation CBT**
  - Beta version distributed 1 February to AOG members for feedback

# Upcoming Events

- **COE Developers' Technical Exchange** still tentatively scheduled for 14-16 May 2002 in Northern Virginia
  - Exact location not yet determined
- **COE Release 4.6**
  - CRCB approved move of date from 5 April to a date after the Tiger Team effort is completed (probably mid-May)
  - Software will continue to be delivered, approved, and released as a part of 4.5
  - 4.6 content and dates will be briefed once Tiger Team work gets closer to completion

# COTS Licensing Issues

- **Paper documenting COE Engineering position provided to AOG reps at February AOG**
- **COE component segments separated into three groups:**
  - **Those that can be installed without “review”**
    - GOTS, abbreviated segments, freeware without use restrictions
  - **Those that require “review” before installation**
    - Enterprise license, freeware with use restrictions
  - **Those that require a purchased license before installation**

# COTS Licensing Issues

- **Draft spreadsheet provided**
  - Information will continue to be reviewed and updated
  - Delivery documentation requirements will be modified to ensure that the information needed to fill in the spreadsheet is provided
- **Segments will be reviewed to ensure they match their delivery information**
